

Regional Awareness, Education and Support

In partnership with the community, the **Food Allergy Network** increases awareness, education and support for individuals with food allergies.

Vision

To ensure a safe, inclusive and cooperative society that embraces the opportunities and realities presented by food allergies.

Objectives

- Raise awareness of the top eight food allergens (peanuts, tree nuts, milk, egg, wheat, soy, fish, shellfish).
- Share insight into day-to-day living with food allergies.
- Serve as creative idea/activity generator.
- Rally civic support and participation.
- Collaborate with local officials, school leaders, teachers, students, families, *etc.*
- Promote safety, health and preparedness throughout the region.
- Recognize community members, businesses, schools, *etc.* for positive efforts.

2013-2014 Initiatives

- Identify, recruit and finalize community task force.
- Obtain FARE Support Group status.
- Attend 2-3 regional events.
- Attend 3-5 Burgess PTO meetings.
- Attend 3-5 district school/PTO meetings; drive discussions.
- Increase visibility and membership throughout Central Massachusetts.
